Hi Louise!

Hell (IV) really has flown and here we are Juniors and next year Seniors! - Gee but hasn't it been a fun filled year? There was the

at the first of the year when everyone got so upset. That was kind of fun. Then there is that class that we both learned so much in. ♫ ..... It was kinda' for the huh? It looks as if we both got through Gym without

or

We've been pretty lucky although my ankle looks kinda lousy.

Now there's Seminary - If we never broke our arms in doing something natural like falling out of a tree, this was the class to do it in. (It seems) like all I can do is moan!?!

But really I've enjoyed your friend -  this year. You are just the person to come to, to tell your troubles too. We've had some darn good talks and I believe I'd tell you most anything.

My sincere wish is that we can [illegible] gh life as good as friends as [illegible] low.

Dear Old A. F. High

Dear Old A. F. High,
Yes, we will love you till we die.
Your banners bright of red and white
Will be a beacon through the night.
Dramatic art and ball and track,
We always bring the honors back.
We get the pep,
We get the thrill,
From A. F. High School on the hill!

Dear Louie.

I find it extremely difficult to find words to express my deep feeling for you. Life without you would be hell! Oh did I say that.

We are seniors think of the glory I feel as if I were the master of all I survey. (next year that is. You know we are just a couple of old sentimental ladies. While everyone is taking advantage of the time we have free in Mr. Holmstock's we sit and mope about and remember. But I love to anyway.

I guess now that graduation is over that go like hotcakes and I'll be thinking of Sept. I hope that you will come up and see me this summer. And really have fun.

Be good

Love

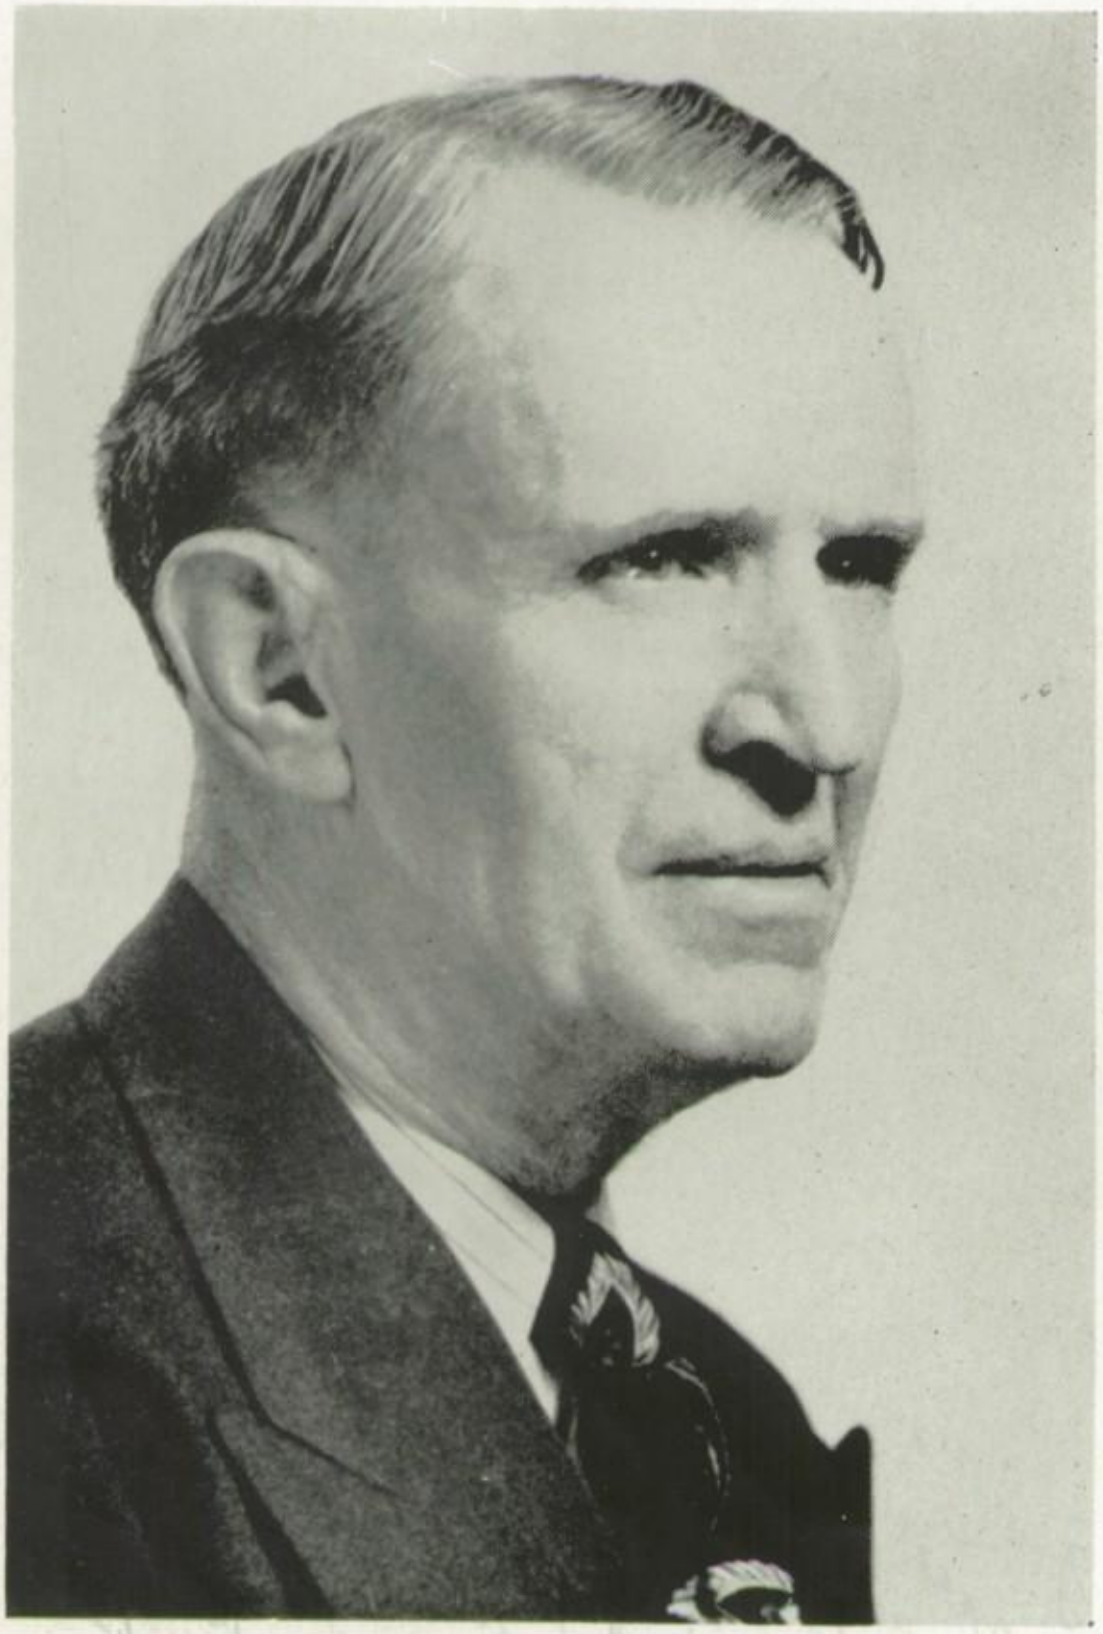
Here with footsteps padded by the falling leaves we enter into a realm of autumn time. We, the students of American Fork High School build memories that we will cherish throughout our entire life. While treading the rustling grass, our eyes search "The Golden Horizon."

Administration



Principal Jesse M. Walker

As the end of the school year approaches, it is natural for us to look back on the year's experiences and to contemplate on how well we have spent the year.

If we have done our work regularly, and with reasonable care and accuracy; if we have been positive in our attitudes toward worthwhile activities of the school; if we have been helpful to our friends and fellow classmates, then the experiences of the past school year have been both profitable and satisfactory to us. In addition, we will have done much to equip ourselves to live successfully in the period which follows our high school days.

Good traits of culture, good working habits, true loyalty and dependability, are characteristics so much needed in the world today. These we can obtain in school.

Principal Jesse M. Walker

It has been my good fortune to work with youth for a long time. I have tried to be sympathetic with and understanding of them and their problems. I hope that they are able to feel my interest in them is sincere and genuine.

A teacher is known by his students! American Fork has long been known for both its outstanding students and faculty. Our teachers are always interested in all our little problems—such as why and how we can get so many "D"andy marks.

In all sincerity, we, the students of American Fork High School, truly admire and respect each one of our faculty advisers. We feel it an honor to have the privilege of learning under their leadership, and helping us maintain the high standards for which our school is distinguished.

Student Council

Our school has been growing by leaps and bounds! And, as in the case of all those who want to better themselves, we have established a representative student council this year. The members are elected by the student body and they take charge of anything that comes up unexpectedly. This student council works along with our student body officers and our faculty to smooth out any difficulties that may arise. We sincerely appreciate their efforts and feel proud of them in their task of revising our constitution. We hope that American Fork will continue this excellent work begun by our first and finest student council.

Seniors

"Big Wheels of 1952"

We, the senior class of 1952, should be proud that we belong to such an organization. When we look back on our senior year and see that one stray lock of bleached hair, or think of that very embarrassing moment when the teacher criticized us in front of our current heart-throb, or we wondered just why we couldn't get algebra just as well as Einstien; we will understand just how wonderful the life of a senior, especially in American Fork, is.

Our senior class has always been the first to go ahead and try something different. We have the energy of youth and the knowledge bestowed upon us by our teachers. With these two things combined with an open and willing mind we embark on life.

GRIDIRON

When the American Fork Cavemen galloped out onto the field, a roar of pride echoed through the entire crowd who saw them play football—Real football. We saw brilliant plays executed with precision. We saw ends and backs, guards, tackles, and centers—each of whom could have been a star by himself—work together so smoothly that we were conscious always of the team.

"They made the touchdowns, we made the noise!"

The Way of The World

Oh, where are the playmates
of yesterday,
The fellows we knew at
school?
Oh, what has become of the
studious one?
And where, oh where, is the
fool?
Oh, what has become of the
orator,
Whose passion was to recite?
And the bashful kid who
could speak no piece
Unless he s u c c u m b e d to
fright?
Oh, what has become of the
model boy
Who was always the teacher's
pet?
And where, oh where, is the
tough young nut,
The one we can never forget?

The studious one, so we have
been told,
Is driving a hack these days;
While the fool owns stock in
a bank or two,
And a railroad that always
pays.
The orator that we knew so
well
Is clerk in a dry goods store;
While the bashful kid we
knew, has been
In congress ten years or more.
The model boy is behind bars
For stealing the neighbor's
cow.
And you ask what of that
tough young nut?
Oh, he's the bishop now.

Hi Louise.

Well kid as you must all o should have known by now School is all most out for another year. "For you", But for me it is out for good". Gee Louise if so many people did not read this book I could really say a lot. Remember all the fun we had this year & last year too? Well Doug & Janice will not be with us on any more dates so I guess we will both to go alone.

Louise I am sure glad that school is out, but I wish it was not out for good, it will seem kind of funny not being able to see you every day or walking you to class, I will sure miss that. Well as I have said Louise school is out over for us, but that is all we have the rest to look forward to. "My pen is not writting to good"; & neather is my hand. I must say Louise it has been a lot of fun & very nice knowing you as long as I have. I guess I am not too good of a kid, but I will half to admit I would have been a lot meaner if it had not been for a swell gal like you to push me on & to take me a way from your house to who.

Well Louise I have not got too much room left on this page, & what else I have to say I can say to you some other time. "So with

Be good and always remember me. I think your a swell girl & I wish you all the luck & success in the world.

Dear Louise,

Well kid, this old year has finally gone by. I still can't believe that you kids have finally climbed the ladder and now you're only one step to go and you'll reach the top. you kids be a real class and I'm sure the school will be in goods hands with you kids next year. Louise, I have really enjoyed your friendship through the past long years. We used to play together so much when we were little and those memories will always be dear in my heart. you have been a real good neighbor and I've really enjoyed going to the same word with you and the many other things we've done. Well kid I guess I'd better close this or you'll think I'm writing a thesis. I want to wish you all the luck in the world because a girl as pure as you deserves it.

Hi/Ugly girl that I don't like (Very Much). Haven't we had the times this year - Remember our dance for the Prom and all the embarassing talks we have & people always listen - (really hate those people) No, but that was so fun - And I'll never ever forget our Poor ball we killed & burried & then he got yellow fever Poor ball I felt so bad that ball meant a lot to both of us. Oh, And Girls Day what a time buying all that food & going to Pleces Old well those were the days! Aren't you excited graduation tonight! We'll be so lonesome next year (Ha Ha) really Jonnie I can't think of Anyone I have had more fun with this year the way we always play Tennis in gym only one thing was wrong - we didn't know how. wasn't it fun being a bridesmaid for Jonnie D. It was so pretty was just about Cried almost - I made up my mind that I wouldn't tell you what a sweet friend you are & what a sparkling personality you have or how thoughtful I am that you are in the Color guard but it looks like I have so I need to tell you I really mean it - Be good to Clyde & me I need to say more but —

Boy do you kick! You finally moan the pillow and also, my feet froze.... There I'm not little any more..... But that was fun for you, me, & Jaleen, I don't know how much Donna enjoyed it: We always give her the work-

I'm really thrilled also jealous of you getting in the Color Guard - You'll sure make it more colorful when you get out of step and your ( ) trips ya & your hands get out of control - Along with your one leg That's longer than the other one - (Those judges must have been pretty hard up for material.)

Of course you know I wish you lots of luck — all kind - and lots of happiness with your home at the State Correctional-School for Delinquent Females - I guess we'll both be attending that College Maybe we'll be watching together & working our way through shop lifting .....

Now please don't write too many Concerto's this summer as we really have enough musicians in the world... With Spike Jones, 1st Frozen Hot Shots... & Cass Daily, and

Always stay as Chubby & Jolly as you are now & you'll always be Chubby & Jolly - Then I can pinch your little cheek.

Now I'm getting ignorant - No kidding though I really love ya - Seriously & I am so really proud to call you my friend - (I don't know if I still can or not - after this -) But always be happy and put up with my onery ways cause I want to always be your friend Lots of Love Sal
